Commercial Lockout Tag out Agreement

This agreement is for the _____ project located at _____.

Located in _____ CA. and includes all Tenant Improvement permits associated with this project.

This agreement is to confirm that the use of permanent power for this project will be only for testing purposes only and will be the sole responsibility of the electrical contractor to maintain these requirements and keep a log as to when these tests are performed and completed.

1. All locks for the main switch gear will remain locked at all times except for the purpose of testing only.
2. Any lock that is removed for testing must be logged and replaced at the end of the work day unless the test requires additional time to complete test.
3. It is the responsibility of the electrical contractor to maintain the lock out tag out agreement until the County of Riverside has given approval to remove these locks for designated areas or after the completion of the final inspection which all locks can be removed with the County's approval.
